

Ductile Iron Remote Control Float Valve

We supply Ductile Iron Remote Control Float Valve. The HISPEED® Float Control Valve or Flow Level Control Valve is a non-modulating valve. Float Control Valve is used to maintain a pre-set point water level. The float pilot will shut off when water level rises to high level, and open when water level drops. The float ball can be mounted separately in the water tank or with the main valve. The HISPEED® Float Control Valves

are designed for installation in the water supply connection to sprinkler, deluge, foam systems, or standpipe fire protection systems. The HISPEED® Float Control Valve features a flange, easy installation and accessibility. We are expecting to become your long term partner in China.
