

**PN16 Resilient-Seated Swing Check Valve**

As the professional manufacture, we would like to provide you high quality Hispeed® PN16 Resilient-Seated Swing Check Valve. We supply PN16 Resilient-Seated Swing Check Valve. The Check Valves are low friction loss check valves designed for use in fire protection systems. These are used in fire protection systems to allow water-flow in one direction only. Typical applications include connections between public

water supplies and private fire systems, at the discharge from fire pumps, at gravity tank connections and at fire department pumper connections. We are expecting to become your long term partner in China.

**Product Description**

As a professional high quality Hispeed® PN16 Resilient-Seated Swing Check Valve manufacture, you can rest assured to buy PN16 Resilient-Seated Swing Check Valve from our factory and we will offer you the best after-sale service and timely delivery. The company has always been oriented by customer demand and respect for talents, constantly improve their strength, improve service level and quality.
